

## **Adult Education for May** **Unpublished Prophets**

The Old Testament contains many books of the prophets, whose word continues to speak to us today.

These were not the only prophets of Israel, however. Numerous other prophets are mentioned in the Bible. We don't have their words; we have only reports of their actions. On the principle that actions speak more loudly than words, adult education will spend the first 3 Sundays in May checking out unpublished prophets such as Deborah, Nathan, Elijah, and Elisha.
